

NIMRA FATIMA

SENIOR FRONTEND DEVELOPER

0333-021-7239 | fatimanimra95@gmail.com | Karachi, Pakistan

CAREER SUMMARY

A highly motivated and results-oriented programmer specializing in front-end web development. Proven ability to build responsive and user-friendly web applications using Angular, HTML, CSS, PrimeNG, and Bootstrap. Possesses strong skills in API integration, project deployment on Microsoft Azure, and version control with Git. Experienced in utilizing Jira for project management and has a successful track record of client collaboration on Upwork. Dedicated to delivering high-quality, scalable solutions with a strong emphasis on performance and optimal user experience.

EDUCATION AND CERTIFICATION

Bachelor’s degree Iqra University (Karachi, Pakistan)	2019
Building Your Freelancing Career Digi Skills	2019
Wordpress Digi Skills	2019

TECHNICAL SKILLS

Angular | Typescript | Ionic, Angular | NodeJS | Microsoft Azure | Git | PrimeNG

WORK EXPERIENCE

Senior Frontend Developer Solarinformatics Fulltime (Remote)	2023 - Present
<ul style="list-style-type: none">Develop and maintain responsive, user-friendly web applications by translating Figma designs into pixel-perfect UIs.Implement API integrations to connect frontend applications with backend services, ensuring seamless data flow and functionality.Design and implement new features while optimizing existing ones to enhance user experience and application performance.Identify, troubleshoot, and resolve bugs to maintain high-quality, stable applications.Work closely with cross-functional teams, including designers, backend developers, and product managers, to deliver robust and user-centric solutions.Stay updated with the latest frontend technologies and best practices to drive innovation and improve development processes.	
Junior Frontend Developer Solarinformatics Fulltime (Hybrid)	2020 - 2023
<ul style="list-style-type: none">Assist in developing and maintaining responsive, user-friendly web applications by implementing designs from Figma into functional UIs.Support API integrations to connect frontend applications with backend services, ensuring smooth data flow and functionality.Identify and fix bugs to improve application stability and performance.Collaborate with designers and senior developers to create intuitive and visually appealing user interfaces.Participate in code reviews and follow best practices to ensure clean, maintainable, and reusable code.Learn and adopt the latest frontend technologies and tools to grow technical skills and contribute to team success.	

Junior Frontend Developer | K-Labs | Part-time (Remote)

2020

- Developed cross-platform mobile applications using **Ionic Angular**, leveraging **HTML5, CSS3**, and **TypeScript** for responsive and interactive UI components.
- Integrated **RESTful APIs** to enable seamless data exchange and functionality within the application.
- Collaborated with backend developers and designers to ensure alignment with project requirements and deliver a cohesive user experience.
- Implemented state management and optimized app performance for smooth navigation and faster load times.
- Utilized **Git** for version control and followed agile methodologies to meet project deadlines.
- Gained hands-on experience in building and deploying hybrid mobile applications for both iOS and Android platforms.

Software Engineer Internship | Codekluster | Fulltime (Remote)

2020

- Developed reusable **UI components** using **Angular, HTML5, CSS3**, and **PrimeNG** for responsive user experiences.
- Integrated **RESTful APIs** with Angular to enable seamless data flow and functionality.
- Collaborated with cross-functional teams, including PHP/Angular developers and UI/UX designers, to deliver user-centric solutions.
- Optimized front-end performance through efficient state management and reduced load times.
- Conducted code reviews and provided technical guidance to ensure code quality and best practices.
- Led front-end development, troubleshooting issues, and ensuring timely project delivery.
- Used **Git** for version control and **Jira** for agile task management.

Web Developer / Designer | Robotics World | Part-time (Remote)

2019- 2020

- Developed and integrated **APIs** and dynamic **UI elements** using **Angular** and **PHP**.
- Designed user-friendly, responsive interfaces as a **UI/UX designer**.
- Enhanced user experience by implementing cutting-edge functionality and optimizing performance.
- Collaborated with teams to deliver high-quality solutions from concept to deployment.

Web Designer | The Invisible Orthodontist | Part-time (Onsite)

2017- 2019

- Developed reusable Angular UI components (HTML, CSS, Bootstrap) and integrated RESTful APIs.
- Collaborated cross-functionally to enhance brand visibility.
- Served as PHP/Angular developer and UI/UX designer.
- Optimized website performance (fast load times, cross-browser compatibility).
- Utilized Git/Agile methodologies.
